Team Meeting

February 9, 2015

- Need to laser cut ASAP
  - Need to set a time to laser cut
- Need to test durability
  - Rover casing
  - Monitor Casing
- Start PowerPoint during Friday meeting so we can run it by Dr. Clark
  - Presenters will be Colin, Jane and Bridget
- Might need to make tracks longer
- Put electrical components into CAD
- Going to make treads longer
  - More room inside the treads
- Need to figure out what we can do if we can't cut the treads
  - Determine what to do with the hub
- Have Arduino running multiple tasks simultaneously
- Remove notches
  - Can it be screwed
    - Thick enough for the screw to go in?
    - Will it crack?
- Might try bending plexiglass to eliminate need for seams
