
Dr. Leon VanDommelen, Homework 0b, Due 09/11/18, Question 2

Table of Contents

Initialize	1
My Solution:	1

IMPORTANT: See q1.m for instructions.

Initialize

```
format compact
more off
```

My Solution:

```
% put the value in without printing it out
averageGrade=(45+90)/2;

% now print it out raw
disp('The value is:')
averageGrade

The value is:
averageGrade =
    67.5000
```
